John Hart's Memorandum

Colby and I both feel that Hart's 6 March memo to Lodge on the VC's problems should be given limited circulation around town, since Lodge may well refer to it in his own traffic. I have accordingly had it typed up in a clean version and propose transmitting it via the attached note to Rostow. The text of this note has been approved by Colby, Godfrey and Procter. If you concur, we will send it along to the addressees listed.
